MISSION 1: WORD

CREATE YOUR STICKABLES CATALOGUE | Modules 3.1–3.7

YOUR GOAL
Your job: Turn the starter Word document into a neat, colourful catalogue.

FOLLOW THESE STEPS IN ORDER

1. Open **Stickables_Catalogue_Starter.docx**.

2. Immediately choose **File** → **Save As**. Save a copy as **YourName_Stickables_Word.docx**. Do not work on the original starter file.

3. Change the title so it is large, bold and easy to see. Use a red heading colour.

4. Read each paragraph. Fix spelling and capital letters. Rewrite any sentence you can improve.

5. Make the headings stand out. Use Word Styles or bold, larger text.

6. Add a table with **4 columns**: Character Name, Special Power, Favourite Activity and Motto. Add at least **4 characters**.

7. Add at least **3 pictures, icons or shapes**. You may draw your own characters. Add a short caption under each one.

8. Make the page neat: use suitable spacing, alignment, font sizes and page margins. Keep text easy to read.

9. Add your name in the footer. Add a page number if your document has more than one page.

10. Save your work. Reopen the saved file to check that it looks correct.

BEFORE YOU SUBMIT — CHECK YOUR WORK

- ■ My title is clear and attractive.
- ■ I edited the text and headings.
- ■ I added a table with at least 4 characters.
- ■ I added at least 3 pictures, icons or shapes.
- ■ I saved my file with the correct name.

TIP: Keep the design neat. Do not use too many different fonts or colours.

MISSION 2: EXCEL

BECOME A STICKABLES SALES ANALYST | Modules 4.1–4.4

YOUR GOAL
Your job: Use the sales data to find out which Stickables are popular.

FOLLOW THESE STEPS IN ORDER

1. Open **Stickables_Sales_Tracker_Starter.xlsx**.

2. Choose **File** → **Save As**. Save a copy as **YourName_Stickables_Excel.xlsx**.

3. Click cell **E2**. Type `=B2*D2` and press Enter. This calculates Total Sales.

4. Click cell **F2**. Type `=B2-C2` and press Enter. A negative answer means the character missed its target.

5. Click cell **G2**. Type `=IF(B2>=C2,10,0)` and press Enter. This gives 10 bonus points if the target is reached, otherwise 0.

6. Copy the formulas down to row 9. Use the fill handle (small square at the bottom-right of the selected cell) to drag each formula down.

7. In the Summary area, calculate total units with `=SUM(B2:B9)`; average with `=AVERAGE(B2:B9)`; highest with `=MAX(B2:B9)`; lowest with `=MIN(B2:B9)`; number of characters with `=COUNTA(A2:A9)`.

8. Create a chart: select the character names and Units Sold values, then choose **Insert** → **Column or Bar Chart**.

9. Give the chart a title: **Stickables Units Sold**. Make sure the character names and numbers can be read.

10. Answer the four analysis questions below the summary. Use your spreadsheet to help you.

11. Save your work.

BEFORE YOU SUBMIT — CHECK YOUR WORK

- ■ I entered all 3 formulas correctly.
- ■ I copied the formulas down to all characters.
- ■ I completed the summary calculations.
- ■ I created and titled a chart.
- ■ I answered the analysis questions and saved my file.

TIP: If you see ####, make the column wider. If you see an error, check your formula.

MISSION 3: POWERPOINT

PITCH YOUR FICTIONAL PROMOTION | Module 5.1

YOUR GOAL
Your job: Convince people that your Stickables collection is fun to collect.

FOLLOW THESE STEPS IN ORDER

1. Open **Stickables_PowerPoint_Starter.pptx**.

2. Choose **File** → **Save As**. Save a copy as **YourName_Stickables_Presentation.pptx**.

3. Slide 1: Add your name or team name. Keep the campaign title large and clear.

4. Slide 2: Introduce **3 or 4 characters**. For each character, include its name and special power. Add a picture, icon or drawing.

5. Slide 3: Add a chart from your Excel file. Include **two facts** from your sales results. Example: “Turbo Tortoise sold the most units.”

6. Slide 4: Give **two reasons** people might enjoy collecting the characters. Finish with a short call to action, such as “Choose your favourite!”

7. Use the same colours and fonts on all slides. Use large text and short sentences.

8. Add pictures that match your message. Do not fill every space with text.

9. Check the slides in Slide Show mode. Fix anything that is difficult to read.

10. Save your presentation.

BEFORE YOU SUBMIT — CHECK YOUR WORK

- ■ I have 4 completed slides.
- ■ I introduced 3–4 characters.
- ■ I used two facts from my Excel results.
- ■ I added suitable pictures and a chart.
- ■ I checked the slideshow and saved it.

TIP: You are presenting to customers. Use short, exciting sentences—not long paragraphs.

MISSION 4: HTML

BUILD A MINI STICKABLES WEBSITE | Module 5.2

YOUR GOAL
Your job: Make a simple web page that introduces your collection.

FOLLOW THESE STEPS IN ORDER

1. Open **Stickables_HTML_Starter.html** in Notepad or another text editor. Do not open it only in the browser.

2. Choose **File** → **Save As**. Save a copy as **YourName_Stickables_HTML.html**. Keep the **.html** ending.

3. Change the text inside `<title>...</title>`. This text appears on the browser tab.

4. Change the text between `<h1>` and `</h1>`. This is the main page heading.

5. Write at least **two paragraphs** about your collection. A paragraph starts with <p> and ends with `</p>`.

6. Make a list of at least **3 characters**. Use `<ul>` for a bullet list and `<li>` for each list item.

7. Add one image. Save the image in the **same folder** as your HTML file. Use an image you created or are allowed to use.

8. Keep the hyperlink and check that it opens the correct website.

9. Save the file. Find your saved .html file and double-click it to open it in a browser.

10. Check the page. If something is missing, return to the text editor, fix it, save, and refresh the browser.

BEFORE YOU SUBMIT — CHECK YOUR WORK

- ■ My page has a title and main heading.
- ■ I wrote at least 2 paragraphs.
- ■ I made a list with at least 3 characters.
- ■ I added an image and a hyperlink.
- ■ I opened the saved page in a browser and checked it.

TIP: HTML tags usually come in pairs: an opening tag and a closing tag with a slash.
